Information About the Service

What is the service? Opticomm is a broadband service for delivering high-speed Internet to Australian residential and businesses via fixed line infrastructure such as fibre to the premises.

This service is not available in all areas, please visit -

https://www.opticomm.com.au/check-your-addr ess/] to see if your address is available.

What is required to use this service?

- You will need an address listed as being Opticomm-ready.
- You will need an Opticomm-capable modem/router to access the service. In some cases Opticomm may need to install equipment at your premises, in some cases, a power point will be required and you will

What is Included

Included data when using the Opticomm service

What is not Included

- Static IP Address
- Hardware (e.g. Router or Modem, we can supply equipment if required, a quotation will be sent to you).
- Where additional internal cabling or "MDF Patching" might be required, if deemed required an external 3rd party such as an electrician will need to be engaged at the customer's expense.
- Dishonour and late payment fees
- Address transfers, if you move to another premises a new service will be ordered and your current service will be terminated and may cause a termination fee.

quokkanet.au qwerty@quokkanet.au 1800 663 977 Level 20/31 Queen St Melbourne. VIC. 3000 ABN: 16 664 851 558

need to have approval from the building owner for the works to be completed.

 If the premises are in a multi-dwelling building Opticomm may require access to common areas such as the MDF.

Other Potential Costs

- If you don't have a router or modem one can be supplied, there will be an additional outright cost for this. We will provide you with a quote for the type of service you have.
- You will need to pay for your own internal cabling if required.
- In some cases, your address may be classed as a subsequent install. When this happens there is a \$299 new line fee, we will advise you of this before commencing with the install.

New development fee

The Opticomm may charge a \$300, \$330 or \$550 new development fee if you are the first connection in a newly developed area, or you are the first connection in an established area where the number of premises has increased.

Service Speeds

The nominated service speed refers to the maximum configured throughput of the connection at the NTD ethernet port. Actual speeds may be lower due to factors such as network conditions, demand, and general internet performance.

Important Qualifications

- We may suspend or cancel the service if:
- You do not pay your bill
- Breach our fair use policy https://quokkanet.au/fair-use/
- You are abusive to our staff

Dispute Process
